

# Bonola

Un segno di assoluta precisione definisce la linea di un lavabo dal profilo fluido e dal bacino circolare, delimitato da un bordo particolarmente sottile, che testimonia la qualità manifatturiera nella lavorazione della ceramica. Nella versione self-standing, la colonna rastremata si raccorda armonicamente al catino, conferendo all'insieme una presenza architettonica di grande leggerezza percettiva.

Design **JASPER MORRISON**, 2013

A sign of absolute precision defines the line of a washbasin with a fluid top and round bottom, outlined by a particularly thin edge, exalting the quality of the technique involved in creating the ceramic piece. In the self-standing version, the tapered column blends harmonically with the basin, giving the whole the appearance of an extremely light design.

Un signe à la précision absolue définit la ligne d'un lavabo au profil parfaitement fluide et à la vasque circulaire, délimité par un bord particulièrement fin, témoignage du savoir-faire manufaturier dans le travail de la céramique. Dans la version à poser, la colonne qui va s'amenuisant soutient harmonieusement la vasque et apporte à l'ensemble une présence architecturale tout en légèreté.

Es ist die absolute Präzision, die das Design dieser Modellreihe mit fließenden Profil und rundem Becken mit einem besonders schmalen Rand, ein Zeichen der handwerklichen Qualität bei der Bearbeitung der Keramik. Bei der Selfstanding-Version passt sich die sich nach oben hin verjüngende Säule harmonisch an das Waschbecken an. Insgesamt besticht Bonola durch die architektonisch wertvolle Leichtigkeit des Designs.
