POCKET

Questo catalogo vuole essere un riassunto della produzione generale. Per questo, pur nella difficoltà di far coesistere prodotti stilisticamente compiuti a elementi strettamente tecnici, si è cercato di far cogliere quanto ampia, articolata e trasversale sia la proposta che MAKRO offre ai suoi interlocutori, sempre fedele al proprio credo di rigorosa coerenza e visione unitaria. Uno strumento di lavoro indispensabile per capire e interpretare con la massima libertà le molteplici possibilità d'uso dei prodotti in collezione e con soluzioni progettuali inedite capaci di raccontare la stanza da bagno dell'abitare contemporaneo.

This catalogue summarises our general production. For this reason, although it is difficult for stylistically complete products to coexist with strictly technical elements, we have tried to make the wide, well-organised and transversal range offered by MAKRO easy to understand for its customers, in line with the company's philosophy of strict coherence and harmonious vision. This catalogue is an indispensable work tool to comprehend and freely interpret the many ways in which the products of the collection can be used; it also includes original planning ideas capable of composing bathrooms to suit contemporary lifestyles.

Este catálogo desea ser un resumen de la producción general. Por este motivo, a pesar de la dificultad de hacer coexistir productos que resaltan el estilo de la marca con elementos estrictamente técnicos, hemos intentado reflejar la amplitud, la modularidad y la transversalidad de la gama que MAKRO ofrece a sus interlocutores, siempre fiel a su propia ideología de rigurosa coherencia y visión unitaria. Un instrumento de trabajo indispensable para comprender e interpretar con la máxima libertad las múltiples posibilidades de uso de los productos de la colección y con soluciones de proyecto inéditas capaces de reflejar el ambiente del baño en el estilo de vida contemporáneo.
